* required

UKCA services

Your requirements	Our service
1. UKCA list of requirements	We create a list of the regulatory requirements applicable to your product's compliance in Great Britain (UKCA) in English.
2. UKCA declaration of conformity including UKCA list of requirements (No. 1.)	We create a draft of the UKCA declaration of conformity for your product in English, based on the UKCA requirements list.
3. Technical Documentation incl. UKCA list of requirements (No. 1.) and UKCA declaration of conformity (No. 2.)	We create the technical documentation for your product, including the UKCA requirements list and an UKCA DoC , in one language of your choice. Prerequisite for this service: You provide all necessary documents in accordance with the UKCA requirements list.
<i>additionally available</i> 3.1 Service for Archiving and Updating the Technical Documentation	We archive your technical documentation so that you comply with your statutory retention obligation (10 years) and have access to your documents in the event of official enquiries. We will inform you if, during the distribution period of your product, new regulatory changes come into effect which require modifications of the technical documentation.
